

PURCEE INDUSTRIAL POWER & CONTROLS

www.purceeindustrial.africa

# **Purcee Branded Products**

These products cater to diverse mining requirements.

# ନ୍ତୁ ତ୍ୱଳ Introducing Purcee ନମ୍ମାନ୍ତି Industrial Power & Controls

With over 50 years of experience in the mining sector, Purcee Industrial Power & Controls stands out as the premier civil, electrical and mechanical engineering firm as well as manufacturer of industrial equipment for the mining industry in Africa. With our two branches in the DRC, we offer excellent geographical accessibility with a robust global supply chain. We offer unparalleled value to your mining operations with an exceptional track record, and extensive expertise.

Our commitment to quality is evident through our range of cutting-edge equipment and services, tailored specifically for the unique needs of the mining sector. By providing reliable and durable solutions, Purcee Industrial Power & Controls ensures uninterrupted operations, optimizing productivity and safety. Moreover, our exceptional multilingual customer service and prompt support make us a trusted partner for mining companies in the DRC, solidifying our position as the top choice.

## **Products**

Our product range includes equipment that fulfil common, daily needs to highly specialized, projectcritical solutions, for example:

- **Electrical Panels** and Transformers
- Electrical Accessories
- Lifting Equipment
- Pumps and Cables

## Services

Our highly trained in-house electrical and mechanical engineers specialize in maintenance, repair, and installations.

- **Electrical Panel** Repair and Refurbishment
- Commissionina of New Sub Stations
- Engineering Solutions
- **Boiler Making**

**Electrical Panel** Design and Assembly

Electrical &

Valves

Mechanical Tools

Light Fittings and

Instrumentation

- Conveyer Belt Installations and Maintenance
- Lamp Room Repairs

## Solution

To address these challenges, mining companies need to implement rigorous due diligence processes to select reliable suppliers and ensure continuously efficient operational states and compliance with ethical and environmental standards.

#### **Supply & Distribution**

We offer comprehensive supply chain solutions and are able to distribute high-quality equipment for the mining and industrial sector. We ensure our clients receive reliable and durable products that enhance operational productivity and safety.

- Transformers
- Lifting Equipment

**Electrical Cables** 

- - Conveyer Belts
- Pipes

- - Valves
  - - **Electrical Panels**
- **Pumps**
- Electrical Accessories

### UnrelentingScalability and **Leading Supplier Brands**

We have successfully completed more than 359 projects and fulfilled over 15000 orders, which include over 850 000 different products, ranging from cables, electrical panels, instrumentation, valves, pipe fittings, and more.

Our qualified and experienced electricians, mechanical designers, boilermakers and artisans rise to any technical challenge and implement long-term, sustainable solutions.

## Panel Manufacturers in The DRC and RSA.

Our manufacturing division encompasses the design, production, and supply of high-quality electrical, mechanical, and industrial equipment tailored specifically for the mining and industrial sectors.

#### Description

Purcee Industrial Power & Controls' electrical mining panels are expertly designed to deliver reliable and efficient power management in mining operations. Engineered for optimal performance, these panels ensure seamless energy distribution and control, even in the most challenging conditions. Their robust construction and advanced features minimize downtime, enhance operational efficiency, and protect critical equipment from electrical faults.

With customizable voltage capacities ranging from 30 kW to 150 Jumbo kW, these panels cater to diverse mining requirements, making them an indispensable solution for maximizing productivity and maintaining safety in industrial environments.

#### Safety

Purcee Industrial Power & Controls' electrical mining panels are engineered with the highest safety standards to ensure reliable and secure operation in demanding industrial environments.

Built with robust materials and advanced technology, these panels are designed to withstand harsh mining conditions, offering protection against electrical surges, short circuits, and overloads.

Each panel undergoes rigorous quality testing and complies with international safety regulations, ensuring optimal performance and the safety of both equipment and personnel. Trust Purcee Industrial Power & Controls for dependable and secure electrical solutions tailored to the mining industry's needs.
